

ELIZA BRANDT

Born 1965, based in Stockholm.

Eliza Brandt works with large-scale paintings and textiles in traditional exhibitions and site-specific manifestations. She is concerned with issues such as the question of hope for humanity, to have faith in a bright future and the sustainability of nature. Eliza paints from her soul and thereby gives others the possibility to reflect on their own lives. She trained art at Stockholm University and has taken many courses in painting at art schools in Stockholm. Since 2006 she has exhibited in Sweden and Denmark.
